500 Highland Avenue, Cheshire, Connecticut 06410-2296

(203)271-5500 – 24 Hour Fax (203) 271-5515 – Chief's Office Fax (203)271-5563

Monthly Report from the Town of Cheshire to the Department of Agriculture

March 28, 2025

1. CT Reg§ 22-336-17: Pens and Runs

Animals were placed in cages that did not meet the minimum size requirements while primary enclosures were cleaned.

- There were two dogs impounded during the month of March. Impound numbers 1000033 and 1000034, checklists, NEXGEN description report, and intake photos included. Both dogs were placed in clean, dry kennels with clean, dry bedding. Both were released same day to either a caretaker/owner or to the Prospect ACO that requested that the Cheshire ACO impound the animal until she could respond later in the day to take custody.

2. CT Reg§ 22-336-33: Dog Pound Structure Requirements

- a. Chain link on multiple kennels was broken.
- b. Eight of the trough covers were not installed properly to allow the dogs access to the troughs and could potentially cause injury.
 - Trough covers that were fixed in November by DPW personnel remain fixed.
- c. Flooring surface coating is peeling and cracking and prevents is from being cleaned and sanitized properly.
 - Cheshire Department of Public Works is working in conjunction with Jacunski Humes Architects, as well as other various vendors to address the chain link fencing both inside and outside of the facility, as well as the painted wall and floor surfaces. The initial plans had been submitted to Chief Baker and she agreed that the proposed work would be a viable solution to bring the facility in line with the 2029 regulations. Finalized floor plans are being prepared for submittal in line with the State regulations, so that they may be reviewed, per Sec 22-336-33 Dog Pound Structure Requirements.

3. CT Reg§ 22-336-37: Animal Health

Food was stored inappropriately (including an open bag of prescription food sitting on the wet floor).

- Unopened food remains stored on metal shelving racks off the floor. Any open food is contained in heavy duty plastic bins. This is routinely checked

via LT Miller's daily checklist.

4. CT Reg § 22-336-38: Sanitation

Evidence of a mice infestation throughout the facility.

- Brodeur's pest responded on March 12, 2025. David Brodeur noted "I inspected the entire interior and exterior and did not note any additional rodent activity. All traps were set and empty. I serviced the exterior rodent bait stations. There continues to be good bait acceptance. I covered some of the burrows and will check back next week to see if any have been reopened.

5. CT Reg § 22-336-40: Quarantined Animals; Isolation Areas

Lacked a properly set up isolation area.

- The run (#9) at the south west corner of the kennel has been designated and marked as the isolation/quarantine kennel. The kennel next to it serves as a buffer.

6. Animal Welfare Violations Under CGS § 53-247

- a. Failing to groom animals as needed for health reasons.
 - b. Failure to provide necessary veterinary care.
 - c. Failure to protect animals from becoming wet or exposed to chemicals while enclosures were being cleaned and disinfected.
 - d. Resting surfaces were not dried before allowing animals to use them.
 - e. Failure to arrange proper holding of wildlife that needed to be transferred to a wildlife rehabilitation facility.
- During the month of March there were only the two previously mentioned dogs impounded. Both spent only several hours here before being released; in one case to the owner, and in the other to the Prospect ACO who had requested the assistance from the Cheshire ACO in caring for the dog until she could take it into her custody. Neither dog needed groomed for health reasons. Neither dog required immediate veterinary care. Neither dog was still present when the enclosures were cleaned. Both had been placed in clean, dry kennels with clean, dry bedding.

Items 1, 2a-2c, and 5 remain uncorrected, necessitating ongoing monitoring to ensure full compliance with applicable health and safety requirements.

1. Management and Oversight:

- a. The Respondent is to establish a management team to oversee, review and audit the operation of the animal control facility, this shall include a designated facility supervisor.
 - The management team shall consist of the Chief of Police or the Deputy Chief of Police, and the Support Services Commander.
- b. The management team shall be responsible for the preparation and completion of any forms required by statutes, regulations and this Consent Order.
- c. Supervisor will verify daily operations via checklist and ensure that the

following facility and operational conditions are met:

- i) Animals will be removed from enclosures before cleaning.
- ii) When animals are removed for cleaning, they must be placed in an enclosure that is appropriately sized,
- iii) The cleaning process is to be done in a timely manner.
- iv) Bedding is changed when soiled or wet.
- v) Enclosures must be fully dried before returning the animals.
- vi) Grooming and bathing will be done as necessary.
- vii) ACO will provide the supervisor with a weekly wellness assessment of all animals with photographs.
 - Daily inspections have continued, checklists will be among the attachments. Weekly wellness were not necessary this month.

2. Training:

- a. The Respondent will provide documented training, such as National Animal Care and Control Association (NACA) ACO I Training and Certification, to all staff and volunteers who have direct contact with any animals in the Town's care, control or custody.
 - LT Miller, ACO Leiler and ACO Medlyn have all previously completed this training. Certificates were previously included in the attachments.
- b. The training needs to include proper animal welfare and facility operations procedures. It should be at least 25 hours and happen within 45 days of the execution of this Consent Order.
 - Completed for all.
- c. This training will be conducted at the Town's expense.
 - Completed.
- d. Course syllabus shall be subject to the Commissioner's approval.
 - Previously approved via Chief Baker.

3. Animal Care:

- a. Create an animal intake report as required by CT Reg § 22-336-41 and include photo documentation of animals. All animals impounded should have an intake report and records shall be maintained till this order is lifted.
- b. Perform medical assessment upon intake to determine if veterinary care is necessary and provide care.
- c. Animals kept longer than 30 days shall have a wellness exam performed by a veterinarian and documentation should be retained until this order is lifted.
- d. A veterinarian shall examine any animal that requires veterinary care in a timely manner, and Respondent shall implement all recommendations for care.
 - Impound forms and weekly assessment forms continue to be used when necessary have been used. We have also been utilizing the NexGen system upon intake, and dogs are assigned an identifying number in the system.
 - Wellness exams are completed upon intake.
 - No dogs have been here past thirty days, and none have required earlier

veterinary interaction.

- LT Miller received notes from Chief Baker regarding the updated policy, he is making the corrections and will be publishing the full policy in April.
- Intake forms, and photos will accompany this report.

"I have personally examined and am familiar with the information submitted in this document and all attachments thereto, and I certify, based on reasonable investigation, including my inquiry of those individuals responsible for obtaining the information, that the submitted information is true, accurate and complete to the best of my knowledge and belief. I understand that any false statement made in the submitted information may be punishable as a criminal offense under §53a-157b of the Connecticut General Statutes and any other applicable law."

Submitted by LT Miller

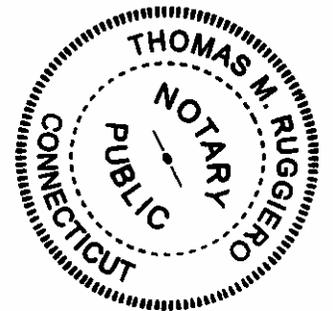

Donald Miller, personally appeared before the undersigned Notary Public.

To: Miller, Donald; Dryfe, Neil
Cc: Harris, Ray
Subject: FW: K9 building

Don,
See the message below from the pest control company.

Dan

From: Mary Caprio <[REDACTED]>
Sent: Wednesday, March 12, 2025 3:02 PM
To: Bombero, Daniel J. <[REDACTED]>
Subject: FW: K9 building

FYI

From: David Brodman <[REDACTED]>
Sent: Wednesday, March 12, 2025 2:44 PM
To: Mary Caprio <[REDACTED]>
Subject: K9 building

Just wanted to update you regarding today's service at the k9 building. I inspected the entire interior and did not note any additional rodent activity. All traps were set and empty. I serviced the exterior rodent bait stations. There continues to be good bait acceptance. I covered over some of the burrows and will check back next week to see if any have been reopened.
