Monthly Report from the Town of Cheshire to the Department of Agriculture

May 29, 2025

1. CT Reg§ 22-336-17: Pens and Runs

Animals were placed in cages that did not meet the minimum size requirements while primary enclosures were cleaned.

- There were several animals impounded in the month of May. A rabbit was surrendered and brought in on May 6. A dog was impounded on a ten-day quarantine on May 12. A husky was impounded on May 26th, released the next day to its owner. A pit bull was impounded on May 28th, released that day to its owner. Impound/intake reports, wellness reports (if necessary), NEXGEN description reports, and photos included.

2. CT Reg§ 22-336-33: Dog Pound Structure Requirements

- a. Chain link on multiple kennels was broken.
 - DoAg approval for the Animal Control Facility floor plan upgrades was received via email on May 20, 2025. LT Miller confirmed with Public Works Deputy Director Harris that he is finalizing the initial schedule (for construction) and will be looking to begin demolition work in the next two weeks.
- b. Eight of the trough covers were not installed properly to allow the dogs access to the troughs and could potentially cause injury.
 - Trough covers that were fixed in November by DPW personnel remain fixed.
- c. Flooring surface coating is peeling and cracking and prevents is from being cleaned and sanitized properly.
 - DoAg approval for the Animal Control Facility floor plan upgrades was received via email on May 20, 2025. LT Miller confirmed with Public Works Deputy Director Harris that he is finalizing the initial schedule (for construction) and will be looking to begin demolition work in the next two weeks.

3. CT Reg§ 22-336-37: Animal Health

Food was stored inappropriately (including an open bag of prescription food sitting on the wet floor).

- Unopened food remains stored on metal shelving racks off the floor. Any open food is contained in heavy duty plastic bins. This is routinely checked via LT Miller's daily checklist.

4. CT Reg § 22-336-38: Sanitation

Evidence of a mice infestation throughout the facility.

- Brodeur's pest control has responded to the building during the month of May. Service Date 5/14/2025 *"Findings. Serviced exterior rodent bait stations. Relocate 1 station to area by front door pad. Noted growth filling in on side into front that needs to be removed. Area still needs to be filled in with crushed stone. Interior inspected for signs of rodent activity..nothing noted during inspection"*

5. CT Reg § 22-336-40: Quarantined Animals; Isolation Areas

Lacked a properly set up isolation area.

- The run (#9) at the south west corner of the kennel has been designated and marked as the isolation/quarantine kennel. The kennel next to it serves as a buffer. From May 12 to May 22 there was a dog quarantined (unvaccinated dog bite). The dog was moved from the designated quarantine kennel to a clean and dry kennel with clean and dry bedding daily for the purpose of cleaning. When the dog was moved the quarantine placard was moved with it and there was always a buffer kennel next to it.

6. Animal Welfare Violations Under CGS § 53-247

- a. Failing to groom animals as needed for health reasons.
 - b. Failure to provide necessary veterinary care.
 - c. Failure to protect animals from becoming wet or exposed to chemicals while enclosures were being cleaned and disinfected.
 - d. Resting surfaces were not dried before allowing animals to use them.
 - e. Failure to arrange proper holding of wildlife that needed to be transferred to a wildlife rehabilitation facility.
- During the month of May there were four animals impounded. Nexgen 1000037 is a rabbit that was surrendered on May 6. Wellness checks were completed for the rabbit on May 9, and May 16 (Fridays). The animal was

adopted out on May 22. Nexgen 1000038 was not an impounded animal, this number referred to a dog that had been bitten in an incident on May 4th, see CFS 2500010115 (included) the animal was inadvertently entered into the Nexgen page. 1000039 was the previously mentioned quarantined dog; May 12th to May 22nd, wellness check completed on May 16. 1000040 and 1000041 were dogs impounded for one day; and several hours respectively prior to being returned to owners. As previously mentioned, animals were removed from kennels/cages for cleaning, and placed in clean/dry kennels or cages with clean/dry bedding.

Items 1, 2a-2c, and 5 remain uncorrected, necessitating ongoing monitoring to ensure full compliance with applicable health and safety requirements.

1. Management and Oversight:

- a. The Respondent is to establish a management team to oversee, review and audit the operation of the animal control facility, this shall include a designated facility supervisor.
 - The management team shall consist of the Chief of Police or the Deputy Chief of Police, and the Support Services Commander.
- b. The management team shall be responsible for the preparation and completion of any forms required by statutes, regulations and this Consent Order.
- c. Supervisor will verify daily operations via checklist and ensure that the following facility and operational conditions are met:
 - i) Animals will be removed from enclosures before cleaning.
 - ii) When animals are removed for cleaning, they must be placed in an enclosure that is appropriately sized,
 - iii) The cleaning process is to be done in a timely manner.
 - iv) Bedding is changed when soiled or wet.
 - v) Enclosures must be fully dried before returning the animals.
 - vi) Grooming and bathing will be done as necessary.
 - vii) ACO will provide the supervisor with a weekly wellness assessment of all animals with photographs.
 - Daily inspections have continued, checklists will be among the attachments. Weekly wellness assessments have been done on any dogs/rabbits in the facility on Fridays.

2. Training:

- a. The Respondent will provide documented training, such as National Animal Care and Control Association (NACA) ACO I Training and Certification, to all staff and volunteers who have direct contact with any animals in the Town's care, control or custody.
 - LT Miller, ACO Leiler and ACO Medlyn have all completed this training.
- b. The training needs to include proper animal welfare and facility operations procedures. It should be at least 25 hours and happen within 45 days of the

execution of this Consent Order.

- Completed for all.
- c. This training will be conducted at the Town's expense.
 - The Town paid for the class.
- d. Course syllabus shall be subject to the Commissioner's approval.
 - Previously approved by Chief Baker.

3. Animal Care:

- a. Create an animal intake report as required by CT Reg § 22-336-41 and include photo documentation of animals. All animals impounded should have an intake report and records shall be maintained till this order is lifted.
- b. Perform medical assessment upon intake to determine if veterinary care is necessary and provide care.
- c. Animals kept longer than 30 days shall have a wellness exam performed by a veterinarian and documentation should be retained until this order is lifted.
- d. A veterinarian shall examine any animal that requires veterinary care in a timely manner, and Respondent shall implement all recommendations for care.

➤ Impound forms and weekly assessment forms have been implemented and have been used as is necessary. We have also been utilizing the Nexgen system upon intake, and dogs are assigned an identifying number in the system. Photos are taken upon intake, and during wellness assessments.

"I have personally examined and am familiar with the information submitted in this document and all attachments thereto, and I certify, based on reasonable investigation, including my inquiry of those individuals responsible for obtaining the information, that the submitted information is true, accurate and complete to the best of my knowledge and belief. I understand that any false statement made in the submitted information may be punishable as a criminal offense under §53a-157b of the Connecticut General Statutes and any other applicable law."

C	Fusco, Kelly	F	W	09/30/1971			CT

On May 14, 2025, Kelly Fusco contacted Animal Control to report that her dog, a Beagle, was attacked by a German Shepherd while being walked by her daughter near their residence at 266 Taylor Ave, Cheshire, CT. According to the daughter, the German Shepherd, identified as "Shadow," ran from the backyard at 266 Taylor Ave into the street and attacked the Beagle without provocation. The Beagle sustained three puncture wounds requiring veterinary attention. The Animal Control Officer responded to the scene and spoke with both dog owners. It was confirmed that both dogs are licensed with the Town of Cheshire and are up to date on rabies vaccinations. Shadow, the German Shepherd, will be quarantined on the property at 266 Taylor Ave from May 5 through May 14, 2025, in accordance with quarantine protocols for dog bite incidents. Steven Farrel was advised of their responsibilities and the importance of properly securing their pets. Compliance with the quarantine order will be monitored by Animal Control.

On May 17, 2025, I conducted a follow-up quarantine check at the residence of 266 Taylor Avenue for Shadow. I spoke with Steven, the homeowner, who reported that Shadow has remained healthy and has not shown any signs of illness. I inquired about his plan to keep Shadow contained in the yard, and Steven explained that he purchased a training collar and, when unable to supervise Shadow, uses a runner. Steven also offered to pay the veterinary bill for Stella, the dog that was attacked by Shadow. I reached out to Stella's owner, who informed me that Stella is healing well, and with Steven's permission, I provided her with his contact information.
